Notes:

* These data represent Fall Quarter numbers

1. Source: University of California Office of the President, Integrated Postsecondary Education Data System (IPEDS) Survey Data (<http://www.ucop.edu/ucophome/uwnews/stat/ipeds.html>) enrollment summary table reports by year.
2. These data include health science residents who make up the majority of graduate non-degree students. Summary IPEDS data tables available from the UC Office of the President do not disaggregate postbaccalaureate students from students at other levels.
3. FTE for Fall 2000 was calculated using the formula FT + (PT/3). For Fall 2001 through Fall 2008, UC Office of the President calculated actual FTE based on actual enrolled student credit hours.
