**Notes:**

<sup>(1)</sup> Equipment managed by Academic Computing Services (ACS), which accounts for virtually all undergraduate use and approximately 2/3 of graduate student use. Excludes the estimated additional 10% of stations at the Rady School of Management, School of Medicine, School of Pharmacy, and Scripps Institution of Oceanography.

<sup>(2)</sup> This is impossible to determine at UCSD since this equipment typically does not enter the inventory system. Based on email addresses assigned, only an estimated 2,200 of the population in the payroll system do not have a UCSD email address assigned and thus may be without a computer.

<sup>(3)</sup> With over 60,000 active internet addresses, 99.9999% of all computers at UCSD are on the network.

<sup>(4)</sup> ACS desktops only. ACS servers are not tracked to this degree.

<sup>(5)</sup> 2006-07 "Libraries" periodicals and misc. print items are a 3.5% projection from 2005-06.
